First State Cash For Skeeter Work Sent To County

First tangible results of a state-wide mosquito control program which was drafted several months ago by a Palm Beach County Commissioner, came to the county board this week.

The program in which the state shares in the cost of mosquito control work, was proposed by County Commissioner Paul Rardin when he was president of the State Association of County Commissioners. Rardin's plan—to have the state help defray the cost of work done by county mosquito control units, was approved by the last session of the state legislature.

Monday, the commission received a check from the state in excess of \$15,000 which represents the state's contribution for the last quarter of this year for county mosquito control.

Beginning the first of the year, Commissioner Rardin said, Palm Beach County will become eligible for an additional \$71,000 through provisions of the act which authorizes the state to match 75 per cent of funds appropriated by counties for mosquito control work.

In Palm Beach County, Commissioner Rardin said, the board has budgeted \$95,000 for control work during the coming year. The state money, he said, is used for permanent control work such as ditching and drainage facilities. The \$15,000 payment received this week is based on funds appropriated by the county for mosquito control work during the present fiscal year.

Duncans On Ship Powerless At Sea

The cruise ship Nuevo Dominico—which was towed into Miami Monday morning with 150 passengers after 19 powerless hours at sea—brought two Canal Point folks home after a visit in Nassau. The local passengers were Mr. and Mrs. Leste Duncan.

Mrs. Duncan described the experience as "something most unusual and an experience not to be desired on any vacation trip."

The ship sailed again with a new passenger list late Tuesday, apparently none the worse for the unhappy breakdown at sea.

Comdr. John B. Lyman, chief of the Coast Guard's merchant marine safety division in Miami announced after a Coast Guard inspection of the 27-year-old Dominican flag ship.

"This inspector found that physically, the vessel is seaworthy and he is permitting her to retain her certificate and proceed."

Garden Club Plans For Fall Meetings

Former Resident Dies In Miami

Services for Frank Everette Tillman, 37, who died Saturday, were held Monday night in Allapattah Baptist church. Burial was in Glensville, Ga.

Mr. Tillman came from Glensville 11 years ago and lived at 6200 NW Second pl. He was a pump operator for an oil company.

Surviving are his wife, Sarah; a son, Wayne; a daughter, Carolyn; his parents, Mr. and Mrs. H. P. Tillman; a brother, Jerry, and two sisters, Mrs. E. C. Smith and Mrs. S. W. Hansen, all of Miami.

The Tillman family formerly lived in Canal Point.

Youth Drowned In Lake Okeechobee

Tragedy struck on the waterfront south of the Pahokee dock Wednesday when Bruno Gabaldon, 4-year-old son of Gil Gabaldon, drowned while picnicking with his brothers and sister on the edge of Lake Okeechobee south of the dock in Pahokee.

A housegirl employed by the Gabaldons had taken the children swimming in a shallow cove, and the child vanished so quickly the others thought he had gone ashore.

When he was missed, a search party was organized by Police Chief Leon Guthrie, Policeman Buck Humphries and Cpl. E. D. Dugger of the Florida highway patrol.

Two boys, Ronnie Elliott and Robert Goodson, found the body in shallow water near the shore. Apparently, police said, the child had fallen and was carried by undertow into some debris, where his clothes were caught.

Emergency first aid at the scene, and treatment at the Everglades Memorial Hospital failed to revive the child. He is survived by his parents, two brothers, Val and Adrian, and a sister, Marie.

Wanna Get In The Cow Business?

A south shore farmer had some dandy cattle on sale at the Glades market on Monday of this week. They weighed about 1000 or 1100 pounds each, graded commercial and brought the day's near top price of 17c. It was a good sale for that particular day. One ironical fact permeates the glowing returns.

Last summer he was offered 30c per pound for the same cattle. At that time he thought he might hold them and get 35c.

A chap in Pahokee liked the looks of a cow last summer so well that he invested \$225 in said cow. Several months later said cow was sold by the enthusiastic purchaser for \$94. To stave off any argument about this item, the chap bought the cow over the scales at prevailing prices and sold the cow over the scales at prevailing prices.

Miss Annette McIntosh has been the house guest of Miss Jan Bernhardt and family in Miami this week.

Here Is What Transpired At Monday's Meeting Of The Palm Beach County Commission

Possibility of further construction on Vinegar Bend Road in the Everglades was reported to the County Commission this week. Commissioner Paul Rardin, Canal Point, said that he had been advised by the State Road Department that a county request for an addition to the road was now being processed by the state group and has been included in requests for consideration by the road group.

In other actions considered by Commissioner Rardin and other members of the county board this week, the commission approved right of way settlements for two plots on state road 80 and another plot on Lantana West Road.

The board also heard a letter from Earl Powers chairman of the new State Turnpike Authority, thanking the commission for its invitation for the turnpike group to make its permanent headquarters in West Palm Beach. Powers said the commission's resolution would be given consideration when the time came for selecting a permanent headquarters in West Palm Beach. Legion Post commended the board in budgeting funds for county service offices.

The commission received bids this week on construction of a new office building at the airport to house the U. S. Customs, Immigration, Public Health and Plant Quarantine services. Apparent low bidder was Edelburt Construction Company with a price of \$38,900.

The commissioners reviewed a contract between the Town of Palm Beach and the Atlantic Gulf and Pacific Dredging Company for a beach erosion project and voted to make \$10,000 available to help pay cost of the work. The commission previously agreed to help underwrite the cost of a sand pumping operation on the ocean to cut beach erosion.

The board received a request from Attorneys Hal Ives and Russell McIntosh asking that the hours of Glades liquor stores be changed. The request was referred to County Attorney Harry Johnston for study and recommendation.

Attorney Johnston told the commission that a permanent injunction had been granted by circuit court in a suit brought by several cab companies in an attempt to break a franchise between the county and Yellow Cab for hauling passengers at International Airport.

Cinematic Chatter

Hello everybody! Keeping fit is no particular problem to Gene Nelson. The dancing star keeps fit simply by dancing. "I don't do calisthenics, take brisk walks, play handball or do any other standard form of exercise," says Gene. "Whether I'm working in a picture or not, I do some dancing every day. And when I'm preparing for a picture or actually working in one, dance as much as five or six hours a day." Nelson recently made his first gymnasium appearance in some time when he worked out in the Warner Brothers Gym under the direction of Mushy Calahan for his by now famous gym dance in the studio's "She's Working Her Way Through College." But his slim, well-muscled appearance is due to the hoofing which is his livelihood. "Even if I weren't a dancer I wouldn't know any better way to keep fit but by dancing. Of

course my type of dancing is a pretty athletic sort of thing, but even ballroom dancing provides a lot of exercise. You'll find most of the people who dance a lot for fun are in pretty good trim. It's hard to steer a bay window around a dance floor, to say nothing of steering your partner. Gene is listed among directors and producers as one of the cleverest "hoofers" in the movie world. A top artist he is popular, not only with movie fans, but with all who work with him. Gene's latest picture, "She's Back On Broadway," is said to be one of the finest dancing vehicles he has tackled since coming to Hollywood. See you at the movies—Mal.

THERE'S MAGIC IN THE AIR OVER PAHOKEE

E. F. REDDY, District Manager

Magic is in the air—the familiar magic of your favorite network radio programs, brought to your radio station over Bell telephone circuits. ★ The transmission of network radio over telephone facilities is just one of many developments that sprang from basic Bell telephone research to enrich the lives of millions. The microwave radio relay, which carries Long Distance calls and network television, and the sending of news photographs over telephone wires also grew out of the constant search for new magic to make your service ever better. ★

It takes more than magic, however, to keep telephone service growing with the community. It takes a financially healthy Telephone Company, with earnings high enough to keep service good today—and growing tomorrow.

From where I sit... by Joe Marsh

Harvesting a Better America

Rubbed my eyes yesterday when I saw Hap Jackson's truck in Biff Morgan's alfalfa field... helping Biff get in his cutting.

Since they've been carrying on a friendly argument for years (over how much fertilizer to use per acre of alfalfa), I had to ask Hap what was going on.

"Got my own crop in safely last week," he says. "And since Biff's boy is at the summer encampment of the National Guard, I figured the least I could do was to help him out. After all," Hap went on, "there's no argument

over how important the National Guard is to all of us."

From where I sit, a fellow like me, who's too old to get in the Guard, can still vote, do a turn at jury duty, and respect others' rights. Even a little thing like respecting a neighbor's right to have, say, beer or buttermilk at dinner is important if we want to keep America strong. We have to be on "guard" in more ways than one these days!

Here's What Your Congressman Is Doing This Month

(By Win Pendleton)

WASHINGTON EXODUS—What happens when Congress adjourns? What do the Senators and Congressman do and where do they go? Most members spend their time vacationing and working in their districts. For this, the law says they may have free office space in the local federal building, or if facilities are not available, they are allowed \$900 toward office rent. Here is a more or less accurate run-down of how our Florida delegation will operate from now until Congress reconvenes next January.

All of them will keep their Washington offices open. Most of the office personnel will take their vacations during this period, and except for emergencies, Saturday work will be out.

SENATOR SPESSARD HOLLAND: The Hollands plan a vacation in the mountains before opening the Bartow office September first, in the Florida Bank Building. Ralph Davis, administrative assistant, and Jimmie Golden, legislative assistant, will take turns working there.

SENATOR GEORGE SMATHERS: Present plans call for Senator Smathers to visit all parts of Florida between now and January. He will make appearances at many public functions and in all cases will be working out of his Washington office which he plans to keep fully staffed.

CONGRESSMAN COURTNEY CAMPBELL (1st District)—Winton King, of Brandon, and Miss Mary Nell Hancock, Clearwater, will work full time during the recess in the Congressman's office in the Tampa Gas Company Building. Miss Mary Van Denmark will be in the Washington office.

CONGRESSMAN CHARLIE BENNETT (2nd District)—Much "clean up" work and a short vacation will keep Congressman Bennett in town until after September first when he will open offices in the Federal Building in Jacksonville. Executive Secretary Bill Norman will manage the office.

CONGRESSMAN BOB SIKES (3rd District)—The delegation "he-con" will set up offices in the Court House in Crestview. He'll divide his time between fishing with his son Robert and helping constituents with their problems. Plans to write an article or two if he can find time.

CONGRESSMAN BILL LANTAF (4th District)—Busy man Lantaf will open his annual "Congressional Curb Service" at 913 DuPont Building in Miami, August 10-21. Then back to Washington to put his boys in school before taking his wife, Betty, on a quick vacation to Europe.

CONGRESSMAN SYD HERLONG, JR. (5th District)—Leesburg will be headquarters for Congressman Herlong from now until January. Miss Jean Sayre, of Cocoa will work there until September when Mr. and Mrs. E. R. Williamson, of Leesburg, will manage the office.

CONGRESSMAN DWIGHT ROGERS (6th District)—Congressman Rogers will work out of his own law office in West Palm Beach until January. During that time his office in Washington will be staffed by his two faithful workers, Mrs. A. C. Thorson and Mrs. Jack Howlett.

CONGRESSMAN JIM HALEY (7th District)—Mrs. Mary Lee McNichol will look after the Washington office of Congressman Haley while Miss Alice Myers goes to Florida to work with Boone D. Tillett, Jr. in the 7th district office—maybe in Lake Wales, maybe in Sarasota.

CONGRESSMAN BILLY MATTHEWS (8th District)—Janice Bridwell, of Lake Butler, will manage Congressman Matthews Florida office, located in the Gainesville Post Office, while the Con-

LOS ANGELES—Mr. Average Motorist, on completion of a 6870-mile tour of the United States, says that Florida's Levy County has "four poorly marked county cars patrolling a 40-mile stretch of open highway and speed markers are non-existent." Galanoy's trip was sponsored by the AAA and Cars Magazine. He received only one traffic ticket when he was caught speeding on the Shirley Highway in Virginia.

Will Fight Drop In Welfare Payments

PORT ST. JOE—Senator George G. Tapper says the cut recently ordered in maximum welfare payments to Florida old folks is a breach of faith with them. He made his protest in a letter to Charles O. Andrews, Orlando attorney who is chairman of the State Welfare Board.

Tapper, vice chairman of the Senate Public Welfare Committee, had a part in writing the law increasing maximum of \$60 monthly, he said. Any cuts should come later in the two-year period which just started last month, he suggested, or a deficiency appropriation could be voted by the next Legislature.

Maximum old age payments recently were ordered out to \$57 by the State Welfare Board, which said available funds will not reach if the full \$60 is paid.

DO YOU REMEMBER?

HAPPENINGS IN THE LAKE OKEECHOBEE REGION

25 YEARS AGO

County roads stood up well under the storm. The erosion of shoulders between Military Trail and 20-mile bend was held in check and traffic was not interrupted. Traffic on state road No. 8 between Okeechobee and Fort Pierce was stopped Wednesday morning and traffic was detoured via Conners Highway until yesterday morning when three bridges on Conners Highway were washed out by the flood of water from the back country, finding outlet in Lake Okeechobee.

A tropical storm on the eastern and southern shores of Lake Okeechobee that started Tuesday afternoon had blown itself out Wednesday morning. The wind did not attain hurricane velocity here. Its chief feature was rain, five and a quarter inches being registered at the lock in the 24 hours ending at 7 a. m. Wednesday. There was no injury to persons or livestock.

With the canal outlet at West Palm Beach only partially open and discharge restricted, West Palm Beach canal Wednesday began flowing westward into Lake Okeechobee from 20-mile bend when the pressure from the canal opened the lock chamber gate at Canal Point. The elevation of West Palm Beach canal at Dixie Highway crossing Tuesday at 3:30 p. m. was eight feet above sea level.

On their way to their home at Belle Glade from Connecticut, where they spent a vacation, the car in which Mr. and Mrs. Roscoe L. Braddock were riding overturned and caught fire and burned, Mr. Braddock reported in West Palm Beach Tuesday. Mrs. Braddock was injured slightly. The overturning was due to something that went wrong with the rear of the car and when it turned over the gasoline was ignited. When Mr. and Mrs. Braddock stopped in

West Palm Beach Tuesday they were on their way to Belle Glade.

Contract for nearly 100 buildings to be constructed for the Southern Sugar Company on its land near its mill at Canal Point was awarded to Chalkley and Lunc of West Palm Beach on a bid of \$73,751, the lowest submitted, it was announced yesterday at the office of Clark J. Lawrence, architect.

The high schools and grammar schools of Palm Beach county will open Monday, September 17, and the grades will open Monday, October 1. J. A. Youngblood, county superintendent of public instruction, stated Tuesday to The Everglades News. The schools in the Everglades are: Canal Point, Pahokee, Chosen, Torry Island, Belle Glade, South Bay, Lake Harbor, Okeelanta and Bare Beach.

St. Lucie canal, starting from Lake Okeechobee at a point nine miles north of Canal Point, is the main control canal of the lake. Its length from lake to east end lock is twenty-four miles, and it is generally understood that although the canal is not completed it has so far cost six million dollars or more. In the rainy season that is now under way St. Lucie canal may be put out of commission by sand bars formed by erosion of its banks. If St. Lucie canal is put out of commission in 1928 as it was put out of commission in 1924, Lake Okeechobee will be deprived of its main outlet. To depend on St. Lucie canal alone, and to depend on it to function at the time it is most likely to be plugged, is compound foolishness.

Drilling at Mayaca—A drilling rig has started a hole at Port Mayaca for a water well. The location is south of St. Lucie canal near the toll house.

Electric Light Franchise at Belle Glade is scheduled to be awarded by the town council August 15. The Florida Power and Light Company has said it will accept a franchise.

Teachers announced for Canal Point High School: Professor H. L. Speer is retained as principal of the high school and teacher of agriculture in the Smith-Hughes vocational school. J. H. Revels, who taught in Gainesville last year, will succeed M. C. Langford, Mr. Langford having been made principal of the Pahokee school. Mrs. W. P. Jernigan who will have the first grade, and Miss Elizabeth Williams of Tallahassee, are the only other new teachers. The teachers who return are Mrs. W. A. Adams, Miss Anna Kerfoot, Miss Eunice Swickard, Miss Mary Young and Mrs. Lois Goolsby.

Jess Elliott, cashier of the Bank of Canal Point, is laid up with an infected foot. Foster Beatty of Lake Worth is looking after the bank while Mr. Elliott is laid up.

Fred Hand and family returned Monday from a two-weeks stay at Safety Harbor. They benefited from the mineral water and derived pleasure from visits with friends and relatives during the vacation.

A two-story frame building at the corner of Conners Highway and the lake front road is being torn down and the lumber moved. The lot is owned by Dr. Emory J. Thomas of West Palm Beach, and it is understood that the site is being cleared for a more substantial business building.

Mr. and Mrs. A. H. Hamrick have returned from a visit to Georgia. They were in some of the tobacco districts during their absence and observed a good deal of

activity and prosperity. Mr. Hamrick will work with W. H. Vann for Schwitters commission firm this season and will also farm.

A sea sled has been bought by the Southern Sugar Company for use of B. G. Bishop, one of the vice presidents, and was brought up the canal from Lake Worth Saturday afternoon by Francis Cross, who has been employed to drive it. Mr. Bishop went across Lake Okeechobee to Clewiston Sunday. The engine is 200 h. p. and Mr. Cross said the boat made 35 miles an hour in Lake Worth.

In honor of the 18th birthday of her daughter, Miss Margaret Wakefield York, Mrs. James R. York entertained Wednesday afternoon, August 1, at a bridge and took party. High score awards went to Mrs. George C. McLarty and Mrs. Cohen Blakey. Those present included Misses Susie Maxwell, Ina Mae Smith, Lorraine Elliott, Nell Gray, Gladys Dowda, Hazel Boyd of Vero Beach and Mesdames George Crawford, Cohen Blakey, George McLarty and Charles Atwell.

Mr. and Mrs. T. G. Dickson are rejoicing over the coming of their son, Thomas Godwin, Junior, to their home Wednesday, August 1 at 2 p. m. He is a husky lad weighing nine pounds.

Mr. and Mrs. Shive, their married daughter, Mrs. Carpenter, and Geraldine and Mr. and Mrs. Duncan Padgett came back to Pahokee Tuesday evening. They have been visiting relatives in Kansas and Oklahoma.

Mrs. Jones and little son Claudius were slightly hurt in an automobile accident Friday evening. Vernon Jones had been out after some of their stock that had strayed off. He went in the truck. It was a little after dark when he reached home and he was fixing the car when his father and mother drove up. In turning so as to avoid a neighbor, Mr. Jones turned too far and struck his own truck. Mrs. Jones and the boy are both doing fine.

While candidates for city commissioner were being voted on at Moore Haven an informal vote was taken for president and 49 ballots were cast for Hoover and 14 for Smith.

"SOUL" is the subject of the Lesson-Sermon to be read in all Churches of Christ, Scientist next Sunday.

The Golden Text is from I Chronicles (22: 18, 19): "Is not the Lord your God with you? and hath he not given you rest on every side? . . . Now set your heart and your soul to seek the Lord your God."

Jesus' statement, "Take heed, and beware of covetousness: for a man's life consisteth not in the abundance of the things which he possesseth" (Luke 12: 15), is among Bible passages to be read.

Readings from "Science and Health with Ke y to the Scriptures" by Mary Baker Eddy include: "Soul has infinite resources with which to bless mankind; and happiness would be more readily attained and would be more secure in our keeping, if sought in Soul" (p. 60).

Midget Swimmers Make Good Showing

Although the Pahokee swimming team which took part in the Palm Beach County final contests for the Junior Olympic Swim Meet in the Lake Worth Casino pool Saturday did not win, any first place positions, the Pahokee midget group, with little preparatory training, showed up well in the meet and gave promise of championship material for future meets, according to Coach William D. Howard.

In the midget division the Pahokee girls relay team, composed of Patsy Keene, Linda Close, Linda Hand and Judy Canipe, came in third and the boys relay team, Freddie Hickerson, Robert Boe, John Bacon and Robert Oyster, splashed their way to fourth position. Linda Close placed third in the breast stroke race; Linda Hand, fourth in the girls medley and Freddie Hickerson, third in the boys medley.

Wayne Elliott gave a good performance against stiff competition by placing third in the 50-yard free style race of the intermediate division.

These swimmers qualified to enter the South Florida meet in Miami Saturday, Aug. 15.

This is the first time Pahokee has entered a swimming team in a meet of this kind and the contestants were not sufficiently trained. Coach Howard has plans for a regular training program for competitive swimming at the Pahokee pool next summer.
